- User Research
- Quantitative/ Qualitative Research
- Wireframing and Prototype Design
- Information Architecture
- Adobe Creative Suite
- Team Collaboration
- Figma
- Visual Design

EXPERIENCE

FastTrac:

Accelerating Learning for Fast and Better Drivers

Directed the design, production, and graphics for FastTrac, an innovative training platform crafted to expedite the learning process for drivers. Addressed challenges associated with slow and expensive driver improvement methods, making the journey to becoming a proficient driver more affordable, accessible, and time-effective. Demonstrated commitment to skills development and proficiency in transforming ambitious ideas into reality.

Canopy:

Bridging Communities and Urban Planning

Contributed to the Canopy project by conducting research interviews with citizens and residents and creating graphics to facilitate collaboration between them and city officials in urban planning. Introduced a user-friendly platform for inclusive and low-commitment community engagement in urban planning. Shifted the paradigm of urban planning by promoting inclusivity and community ownership over development projects.

Blick Website Redesign:

Enhancing User Experience

Managed the Blick website redesign, optimizing information architecture and simplifying complex navigation. Addressed user concerns by streamlining information architecture and enhancing overall website navigation. Showcased expertise in web design and commitment to creating exceptional user experiences.

Magnolia: Elevating Creative Collaboration

Contributed to Magnolia by optimizing chain supply for seamless access to art materials, introducing an intuitive scheduling interface, creating dynamic visual progress narratives, and fostering collaboration within the vibrant community hub 'Treetique.'

Crease Pro Ai: Ux/ Ui Internship

I am currently working on four projects as an intern for Crease Pro AI, a company that provides innovative AI solutions for the fitness industry. My work includes designing a modern and professional logo, writing compelling stories that showcase the benefits of Crease Pro AI's products and services, and creating a user experience and user interface that is easy to use and intuitive.

ACCOMPLISHMENTS

Dean's List, 2020, 2024
SCAD Men's Lacrosse
2020-25
